

"It's been worth its weight in gold."

Lori Shofroth, Director of Dining Services
Tippecanoe School Corporation,
Lafayette, IN

Fresh and fast in half the time.

Since Tippecanoe Schools began using the Ovention Matchbox® ovens in their schools, they have decreased their cooking time by half for most of their made-to-order items. The Matchbox enables Shofroth and her staff to cook small batches of food that are high quality and delivered more quickly. Sandwiches, paninis, and scratch-made pizzas are prepared right in the service line, made-to-order directly in front of students, as part of their fresh and fast philosophy. Shofroth ascribes their high level of customer service to the Matchbox Oven's true on-demand capabilities.

"The thing we found most exciting about the oven is that anyone can run it. It's the same quality product every time you make an item... there's no guesswork."

MatchBox® 1718 Oven

Making delicious the right way, right away.

The demand for delicious fresh-prepared food is higher than ever. From authentic flatbreads to roasted vegetables, our innovative and intuitive ovens cook foods better, faster – without the need for venting or hoods. Unparalleled cooking accuracy. Unprecedented operational efficiency. Unmatched culinary versatility.
