Double MiLO® 2-16 Oven

Air + IR = Superior quality food products with one-of-a-kind artisan finish.

Double MiLO® 2-16 Oven

EXTERIOR CONSTRUCTION

- 430 Stainless Steel exterior
- Counter-mount or with 4-inch adjustable legs (included)
- Whisper quiet operation at 66dB
- Dual front-facing full-color 7-inch touchscreen displays

INTERIOR CONSTRUCTION

- Two fully-insulated independent 304 stainless steel cook chambers
- Patented linear impingement heating technology with variable-speed recirculation system
- Patented independently controlled top and bottom infrared (IR) emitters
- Illuminated oven cavity during operation
- Easy to clean design with dishwasher safe trays and filters

STANDARD FEATURES

- Integrated catalytic converter for UL listed ventless operation
- Intuitive touch controls can store 1000+ recipes with dozens of standard icons and full color product images
- Industry leading online menu & recipe software allows for easy menu creation and management via USB drive
- FlexTemp™ dynamic temperature management allows $\pm 25^{\circ}\text{F}$ between cook cycles
- Self-diagnostics for monitoring oven components and performance
- Smart Voltage Sensor Technology* manages variances in 208 & 240V operations
- High visibility countdown timers
- $\frac{1}{2}$ sheet pan or 16-inch pizza capacity per cavity
- External easy-access air filtration
- Programmable cavity venting for humidity management
- 6-ft cord and plug
- 1-year Parts and Labor Warranty
- Productivity: www.ventionovens.com/pizza-calculator-yield-per-hour

STANDARD OPTIONS & ACCESSORIES

- Stainless steel exterior standard - (11) alternate colors available
- Dozens of accessory options available

CERTIFICATIONS

This product conforms to the ventilation recommendations set forth by NFPA96 using EPA202 test method.

* Smart Voltage Sensor Technology does not compensate for lack of or over voltage situations. It is the responsibility of the owner to supply voltage to the unit according to the product specifications.

† Ventless certification is for all food items except for foods classified as “fatty raw proteins.” Such foods include bone-in, skin-on chicken, raw hamburger meat, raw bacon, raw sausage, steaks, etc. If cooking these types of foods, consult local HVAC codes and authorities to ensure compliance with ventilation requirements. Ultimate ventless allowance is dependent upon AHJ approval, as some jurisdictions may not recognize the UL certification or application. If you have questions regarding ventless certifications or local codes, please email connect@ventionovens.com.

VENTLESS OPERATION DETAILS†

- UL (KNLZ) listed for ventless operation
- EPA 202 test: Qty (230) 12" pepperoni pizzas, 525°F, 8 hrs
 - Results: 1.81 mg/m³
 - Ventless Requirement: < 5.00 mg/m³
- Internal catalytic filtration to limit smoke, grease, and odor emissions
